

We are the experts in hospital storage

Shelving and storage solutions

Customised shelving and storage solutions for the hospital and healthcare industry

From our extensive knowledge in the healthcare industry, NSC understands the space and storage requirements of all specialised areas, particularly relating to operating theatres and CSSD, and develops customised, efficient shelving solutions for each and every application

National Surgical Corporation is certified to AS/NZS ISO 9001:2015

BE SUPPORTED BY AN AUSTRALIAN COMPANY PROVIDING VALUE BEYOND THE PRODUCT

NATIONAL SURGICAL CORPORATION

A proudly founded and owned Australian company - providing value to our customers beyond the product

Shelving and storage solutions

NSC Shelving and Storage Solutions provides hospitals and other healthcare facilities with customised shelving solutions. NSC designed and developed our storage systems specifically for the Australian medical industry and can be installed in any department.

As a distributor of surgical consumables and instruments to the healthcare industry, we understand the space and storage requirements of these specialised areas, particularly relating to operating theatres and CSSD. As such, NSC is able to develop customised shelving solutions for each and every application.

Quality and performance is of paramount importance to our clients so all our products are manufactured and installed to assist our customers in complying with Australian Standard AS4187:2014 and OH&S requirements.

Our storage systems work in conjunction with each other and most rooms are now designed with a combination of chrome wire shelving, Pegasus units, baskets and accessories.

Experts in hospital redevelopments and refits

NSC has installed and delivered shelving solutions to over 180 customers, mostly hospitals to assist in redevelopments, fitouts and upgrades.

NSC has the capabilities to design and install large scale hospital redevelopment projects. NSC provides detailed CAD designed drawings to demonstrate the correct scale and size of the shelving site.

Features of NSC chrome wire shelving:

- Allows air to circulate over stored items, preventing dust collection
- Assists in complying with AS4187:2014
- Commercial grade chrome wire
- Manufactured specifically by NSC for the healthcare industry
- High load capacity and structural rigidity
- Lightweight when unloaded
- Each shelf can hold up to 150kg, total unit up to 600kg

STATIC SHELVING & TROLLEY SYSTEMS

- Various sizes to fit within any storage area
- Adaptable for any area
- Shelf heights can be adjusted to suit your storage needs
- Customise with a range of accessories
- Security cages can store valuable or confidential items
- Static and trolley units can be built side-by-side and back-to-back
- Trolley units allow safe and fluid movement around site
- Trolleys are manufactured with heavy duty 125mm castors to allow fluid movement around all areas of a hospital
- Trolleys covers available - custom made in Australia

COMPACTORS - TOP TRACK

- Custom built for each storage area
- Increase storage space by up to 40%
- Ideal for storing goods in areas with space restrictions
- Overhead rails allow mobile shelving to move along tracks
- Streamlined movement, even with large or bulky goods
- Versatile system - can be built up to 12m long

for the hospital and healthcare industry
